Page #	Reviewer #	Comments
5	3	“is comprised of” to “comprises”
6	3	Switched order in navbar description paragraph to correspond to the application.
6	2	Mention appendix which contains description of the file structure necessary for user data.
6	2	Mentioned the form of data export and how communities are stored in the gml file.
6	2, 3	Typos “of if plausibility or extend to which” to “of plausibility or extent to which”
12	2	“a fundamentally” to “fundamentally”
14	2	Added an image showing the process of uploading user data into gravicom, specifically the political books example.
18	2	Added a clause hopefully making it clear that it would be nice to be able to look at this dynamically, allowing for a temporal structure, however currently this is not possible within gravicom.
